

Meeting Notes

- Jamie drafts FAQ by Friday
- Priya reviews Monday
- Pricing page postponed until legal review
- Legal review owner: Not stated
- Next check-in Tuesday

Recap Prompt Template

Use the following meeting notes to create a weekly recap: {Meeting_Notes}

Decisions

- _____
- _____

Actions (Task | Owner | Due date)

- _____ | _____ | _____
- _____ | _____ | _____

Open Questions

- _____
- _____

What problem are we solving?

3 hours: 50-minute lesson, 10-minute break, 50-minute guided practice, 10-minute break, 50-minute applied practice, and 10-minute wrap-up.

SITUATION

The problem

A team rewrites the same weekly meeting recap from scratch, so important decisions and action owners are easy to miss.

TARGET

Learning goal

Build a reusable prompt with clear input fields and a consistent output format.

Practice material: Use the practice material supplied in the session Markdown.

Use these supplied facts

Do not replace missing information with guesses.

CASE MATERIAL

Practice notes (fictional)

- "Website FAQ update: Jamie drafts by Friday. Priya reviews Monday. Team agreed to postpone the pricing page until legal review. No owner named for legal review. Next check-in Tuesday."

BOUNDARY

Use the supplied facts

A team rewrites the same weekly meeting recap from scratch, so important decisions and action owners are easy to miss.

Understand the idea and apply it

Work through the explanation before comparing prompts or starting the exercise.

LEARN

Separate fixed instructions from changing notes

- A reusable prompt keeps the same task directions while a placeholder such as {Meeting_Notes} marks the content that changes each week. The user replaces the placeholder with new notes; the prompt's role and output rules remain stable. This reduces repeated setup but does not guarantee a correct summary.

LEARN

Design an output that prevents invented details

- Specify the sections the team needs, such as Decisions, Actions, and Open Questions. For actions, request a task, owner, and due date. Tell the model to write "Not stated" if the notes do not name an owner or date. This makes a missing field visible instead of inviting a guess.

Understand the idea and apply it

Work through the explanation before comparing prompts or starting the exercise.

LEARN

Test reuse against the source

- With the supplied notes, Jamie owns the draft and Priya reviews it; legal review has no named owner. Compare every name, date, decision, and action in the result with the notes. Then try a second short set of notes without changing the fixed instructions. A reusable prompt is ready only when it works on a fresh input and its limits are clear.

APPLY

Three-step method

- Define the repeated task and audience; add named input placeholders and output fields; test the template and compare its claims with the input.

What makes a prompt weak?

These examples come from the current session scenario.

POOR PROMPT 1 - DO NOT USE

AI Chat

You
Summarize this.

A clearer, safer prompt

Keep the source, task, constraints, and output check visible.

IMPROVED PROMPT 1 - COPY AND SEND

AI Chat

You

From {Meeting_Notes}, list decisions, actions, named owners, and dates.
If a field is absent, write "Not stated." Do not infer an owner or deadline.

Message AI...

IMPROVED PROMPT 2 - COPY AND SEND

AI Chat

You

Format the result as: Decisions; Action | Owner | Due date; Open questions.
Keep names and dates exactly as stated. End with one item needing confirmation.

Exercise 1: Follow the steps

Use the complete case and instructions from the session Markdown.

GUIDED PRACTICE

Exercise 1: Follow the steps

- Turn the supplied notes into the four output sections using Good 1 and Good 2. Check that Jamie owns the draft, Priya reviews it, and legal review has no named owner.

Exercise 2: Try a small variation

Use the complete case and instructions from the session Markdown.

APPLIED PRACTICE

Exercise 2: Try a small variation

- Replace the notes with a new short set from your group's class-planning discussion. Reuse the same template; change only the input. Compare whether the output remains readable and faithful.

Write your session report

Use Report_template.docx in Microsoft Word. Save it as FirstName_StudentID_W13_Keyword.docx and upload it to iLearn by 23:59 on class day.

SUBMIT

One report for this session

- Introduction: Explain why rewriting the weekly recap from scratch causes missed decisions and owners.
- Method: Copy your reusable prompt card with its placeholders and output schema.
- Results: Include the output for the supplied notes and for your group's new notes, with a check that no owner, decision, or date was invented.
- Conclusion: State whether the template stayed readable and faithful with the new input, and one improvement.

How to know the work is complete

Check your report before you hand it in.

VERIFY

Success check

- The template handles missing fields explicitly and does not invent an owner, decision, or date.
